

FOUNDED 1900

Keighley Association of Engineers (2019 syllabus)

Visit to : **Wishbone Brewery, Keighley**
Date: Saturday 14th December 2019
Start time: 12.00 noon
Location: see below

Dear members and guests,

The Keighley Association of Engineers is pleased to announce our **December** event in our 2019 syllabus, a visit to **Wishbone Brewery, Keighley**

Quote from Brewer Adrian: The brewery premises are based on Chesham Street just off Dalton Lane in Keighley, West Yorkshire. We have the ground floor and first floor in a mill shed that used to be part of Sir James Hill Textiles, my dad used to work here and I still remember the smell of wool grease the place had from when I was a kid going to work with my dad on a Saturday... I'm sure the smell of Hops, Malt & Beer will be an interesting change from wool grease.

This visit will include a complimentary drink and a tour of the brewery starting at 12 noon. You will be able to get food as the company uses the services of an outside caterer. There will be **14** brews available and the Brewery will be open until 7pm!!!!

Please let John Pankhurst know you are coming to this Christmas special (this is open to guests) with your numbers and whether you are likely to order food at john@kaoe.org.uk 07582 822922

You can see much more about Wishbone Brewery on their website:
<http://www.wishbonebrewery.co.uk/>

Address: Wishbone Brewery Limited, 2A Worth Bridge Industrial Estate, Chesham Street, Keighley West Yorkshire, BD21 4LG **Tel:** 01535600412

Directions Walking Directions out of Keighley train station: Come up the ramp from the platform, turn right when you get to the cobbles, take your next right down Dalton Lane, Chesham Street is the 6th street on the left, when you see red brick and a big roller shutter door you are here.
